Organizare

a) Working hours:

Monday to Friday 07:00 – 20:00

By demand or in case of urgent matters we could extend the working program .

b) Terminal Security :

The security of the goods from the terminal is ensured continuously by contract specialized security company.

The terminal perimeter is fenced, properly illuminated at night and permanently supervised with CCTV cameras.

Terminal Services :

a) Rail transport

b) Shunting

c) Handling and storage on the open platform

La sosirea din cursă de la beneficiar, de asemenea, containerul va fi descărcat direct pe vagon sau pe teren în situația în care nu sunt vagoane disponibile.

În cazul în care containerul urmează să staționeze în terminal un timp mai îndelungat, atunci acesta va fi depozitat pe una dintre platformele de depozitare existente în terminal.

Metal profiles handling

Container handling:

d) Truck transportation services

By demand we can organize trucking from terminal to client's destinations using or own container chassis

e) Containerizarea mărfurilor

Stripping&stuffing

f) Container repair services

We can do small repairs such as: inspection of containers, sealing of the side and roof walls, washing and cleaning of the residues remaining from the unloading of other goods.
